

WOUNDSEAL[®]

FIRST AID PRODUCTS

LEADER IN FIRST AID

BETTER FIRST AID

An effective topical powder proven to stop bleeding instantly, WoundSeal provides a solution that seamlessly integrates into any first-aid or emergency-care offering.

Whether placed in consumer first-aid kits, workplace safety stations, or emergency response kits, WoundSeal provides an immediate, easy-to-use bleeding control solution that standard bandages simply can't match. Its rapid hemostatic action helps reduce unnecessary ER visits, minimizes workplace downtime, and gives end users confidence that they can manage bleeding injuries quickly and effectively.

Compact, intuitive, and highly effective, WoundSeal is a kit-ready solution that enhances safety and elevates the value of any product line it's added to.

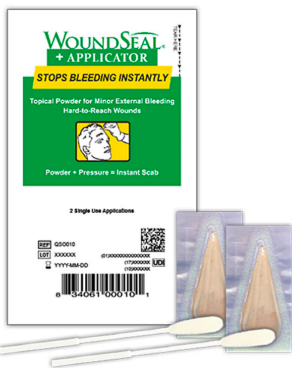

WoundSeal First Aid Products

WoundSeal brings advanced bleeding-control technology to first-aid kits of all types — from consumer home kits to clinical and occupational health applications.

WoundSeal

- For easy-to-reach wounds and cuts
- 2 single-use applications (powder in tubes) per pouch
- Pour WoundSeal powder directly from tube onto wound

WoundSeal + Applicator

- For hard-to-reach wounds and cuts
- 2 single-use applications (powder in blister packs and microfiber swabs) per pouch
- Use the applicator swab to transfer Wound Seal powder from the blister pack onto the wound

WoundSeal Rapid Response

- For larger or multiple wounds
- 1 single-use application (powder in tube) per pouch
- Pour WoundSeal powder directly from tube onto wound(s)

The Problem: Traditional Dressings

- Absorb blood, but do not stop bleeding
- Require frequent changing

The Solution: WoundSeal

- Stops bleeding instantly, even for people who bleed easily
- Forms a protective seal/scab over the wound which falls off naturally as the wound heals
- Lets nothing in and nothing out

Finger wound treated with WoundSeal powder

Fast, Effective & Easy to Use

Instant Hemostasis

Forms a protective seal in seconds—ideal for fast response in workplace or field environments.

- Helps get workers back on the job quickly, minimizing down time.
- Reduces unnecessary ER visits
- Decreases unnecessary OSHA-recordable events

No Training Required

Just pour, press, and the bleeding stops. No mixing, no special skills.

Compact, Durable, and Kit-Ready

Single-use packets integrate seamlessly into:

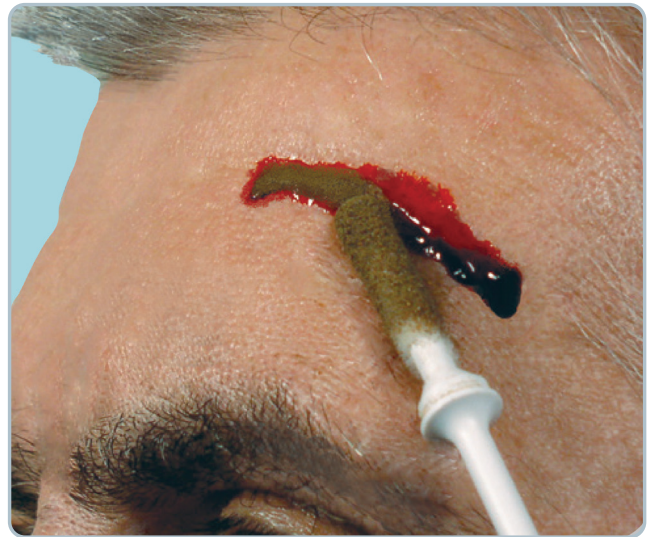

- First-aid kits
- Field service kits
- Industrial safety stations
- Consumer emergency kits
- Remote or high-risk work environments

Works when bandages fall short

Provides reliable hemostasis for cuts and lacerations that continue bleeding through standard dressings.

Proven, safe technology

A hydrophilic polymer + potassium ferrate blend that's hypo-allergenic.

Blood must be present for WoundSeal to work.

Simply apply WoundSeal powder to the bleeding wound and apply pressure for 30 seconds. WoundSeal stops bleeding in seconds by forming a protective seal/scab over the wound.

POWDER + PRESSURE = INSTANT SCAB

Use of WoundSeal Does NOT Require OSHA Recording

"First aid" treatments are not required to be recorded to OSHA, under 29 Code of Federal Regulations parts 1904.7. When treating an injured employee with WoundSeal, the treatment is classified as applying **first aid**, as long as the treatment does not require sutures/staples.

ANSI Standards

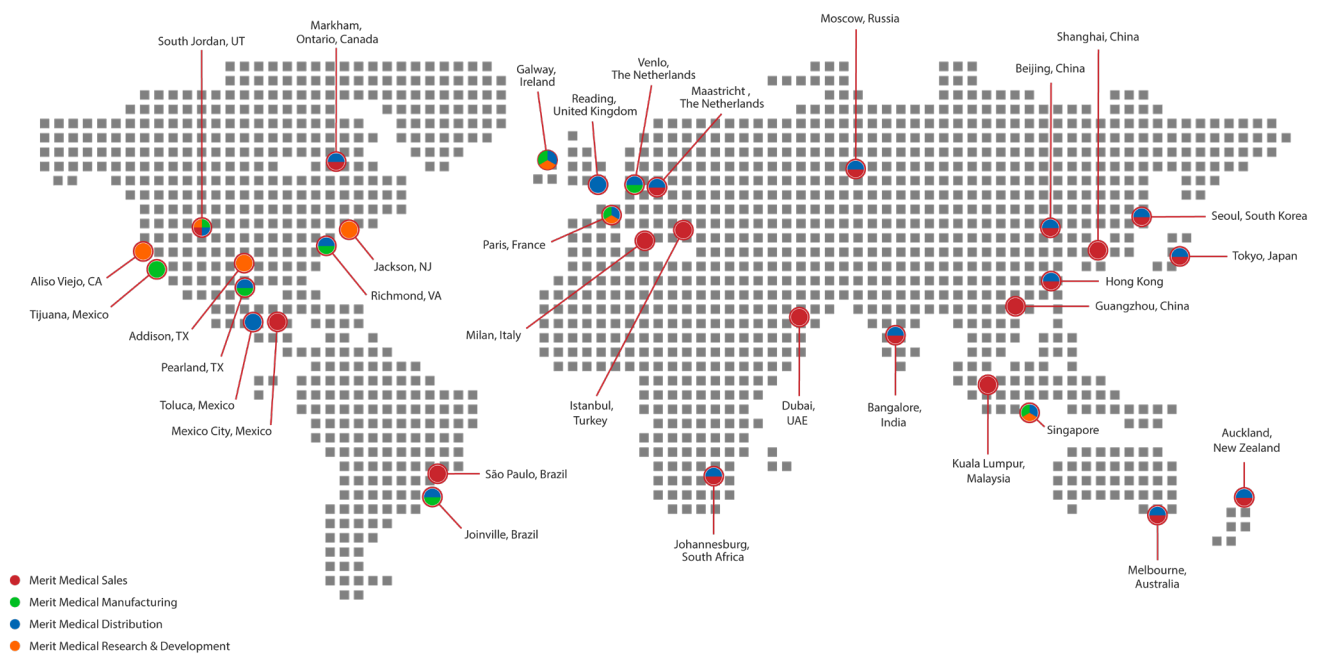

In January 2015 (with an addendum in June of that year), the American National Standards Institute (ANSI) approved a revision to ANSI Z308.1 – 2009. In this revision, ANSI Z308.1 – 2014, ANSI has added the category "Hemostatic Agent" to the supplemental list.

WoundSeal products are only available in the U.S. and Canada.

COMPONENTS | DEVICES | POSSIBILITIES™

Merit Medical Systems, Inc. (NASDAQ: MMSI) has been designing, manufacturing and marketing single-use medical devices to customers worldwide for over 25 years. Throughout its evolution to a successful global company, Merit has developed the organizational infrastructure required to succeed in a competitive, dynamic and highly regulated industry. Merit's OEM customers benefit not just from Merit's components and devices, but also from the organization that supports them.
